EDUCATION

Simon Fraser University

09/2021 - present

Bachelor of Science in Interactive Arts & Technology | Cumulative GPA: 3.47

PROJECT EXPERIENCES

3D Modeler and Animator, Set Sail Again – Short Film Project

09/2024 - 12/2024

- ▶ Led the 3D modeling process, contributing to animation, lighting, and video editing to produce a cohesive short film, successfully improving animation fluidity and visual consistency.
- ▶ Applied advanced animation techniques such as keyframing and motion simulation to enhance visual storytelling.
- ▶ Utilized Maya for 3D modeling and Premiere Pro for post-production refinement.
- ▶ Delivered a polished final product that received positive feedback for its storytelling and technical execution.

Web Developer, SFU Climate Community Interactive Website

02/2024 - 04/2024

- ▶ Designed and developed an innovative website with a interactive homepage and three well-structured subpages.
- ▶ Focused on optimizing the website for accessibility and responsiveness across multiple devices.
- ▶ Conducted comprehensive user testing and implemented iterative improvements, enhancing accessibility and achieving positive stakeholder feedback.
- ▶ Collaborated with stakeholders to ensure the project aligned with the community's objectives.

2D Animator, Music Video for Avril Lavigne's "I'm with You"

07/2023 - 08/2023

- ▶ Designed and developed a 2D animation for Avril Lavigne's song "I'm with You", utilizing Adobe After Effects to create smooth transitions and visual effects.
- ▶ Applied sequential design principles to ensure fluid motion and consistency throughout the video.
- ▶ Integrated digital photography and vector image elements to enrich the visual composition and style.

WORK EXPERIENCE

Customer Service Staff, YiFang

03/2023 - 03/2024

- ▶ Improved Customer Retention: Delivered exceptional service by reducing average wait time, resulting in increased repeat business and a notable rise in customer satisfaction scores.
- ▶ Streamlined Inventory Management: Implemented an efficient inventory tracking system, ensuring optimal stock levels and minimizing beverage shortages during peak hours.
- ▶ Proactive Problem-Solving: Effectively resolved unexpected operational challenges, maintaining a smooth workflow and ensuring high-quality service under time-sensitive conditions.
