 EDUCATION

Bachelor of Science in Interactive Arts & Technology
Simon Fraser University
09/21 - present

- The study program focuses on integrating design, art and technology, exploring interdisciplinary research, and engaging in innovative study and immersive learning.

 ACADEMIC PROJECTS

Website Design and Develop (02/2024 - 04/2024)

IAT 235 - Information Design

- Designed and developed an innovative website for SFU's climate community. The project included a sophisticated homepage and three well-crafted subpages, each tailored to enhance user engagement and information accessibility. Built interactive charts, graphs, and maps to visually represent data, focusing on clear communication for diverse audiences.

Game Creation (10/2023 - 12/2023)

IAT 167 - Digital Games

- Created three games in the casual, puzzle, and action-adventure genres using Processing. The course introduced various game genres, structures, and fundamental programming techniques, emphasizing game design and the creation of underlying patterns that enhance gameplay and player engagement.

Animation Production (07/2023 - 08/2023)

IAT 100 - Digital Image Design

- Developed an animation for Avril Lavigne's song "I'm with You," demonstrating expertise in 2D visual design, sequential and animation design, digital photography, and vector image creation. This project was part of a course emphasizing contemporary practices in new media design.

 WORK EXPERIENCE

Customer Experience Specialist

YiFang Fruit Tea

03/2023 - 03/2024

- Enhanced Customer Experience: Delivered outstanding service, leading to increased customer satisfaction and repeat business through efficient cashier operations and high-quality beverage preparation.
- Inventory Management: Efficiently managed stock receipt and organization, ensuring optimal inventory levels and streamlined operations.
- Problem-Solving: Effectively addressed unexpected challenges, maintaining smooth operations and excellent customer service.
